This clinic is designed for the first-time NATRC (North American Trail Riders Conference) competitors and novice riders who are interested in improving their horsemanship skills. It is also for those who are thinking about moving up to CP or Open divisions. Competitors cover a marked course in a given period of time. You will learn the proper methods of training and conditioning horses for competitive trail riding. CTR is to encourage good horsemanship as related to trail riding and to demonstrate the best methods of caring for horses during and after long rides without the aid of artificial methods or stimulants. We invite you to come learn from some of the top competitors about this great sport.
